SUMMARY

Management Information Systems graduate with hands-on UX/UI design experience and strong client-facing consultation skills from the aviation industry. Contributed to a university capstone project involving requirements analysis and user flow design to translate business needs into a functional digital platform. Brings strong communication, data-driven reporting, and real-time problem-solving skills, with practical experience in Figma, Excel, and SDLC concepts.

WORK EXPERIENCE

Royal Thai Armed Forces

Nov 2025 - Oct 2026

Conscript (Mandatory National Service)

- Completing mandatory military conscription service, developing discipline, teamwork, and adaptability in a structured, high-pressure environment.
- Selected as a ceremonial honor guard for HRH Princess Maha Chakri Sirindhorn's visits to confer degrees to graduates of Khon Kaen University and Nakhon Phanom University (academic year 2026).
- Helped decorate the ceremonial flag vehicle (Rot Thongchai Chaloem Phon) and marched in the Royal Thai Armed Forces Day parade — both earning 1st place in competition.

Air Macau Airline

Jan 2024 - Oct 2025

Passenger Sales / Reservation & Ticketing Assistant

- Ticketing & Client Consultation: Advised and sold tickets to passengers and travel agents, resolving booking issues and clearly explaining policies — serving as the go-to point of contact for agents needing support during operational issues.
- Social Media Management: collaborating with an outsourced content team on content ideation and planning — growing LINE Official followers by 72% and Facebook by 10%.
- Weekly Reporting: Compiled weekly sales figures and BKK inbound/outbound market reports by extracting data from internal systems and summarizing it into clear, easy-to-read reports for management.
- Flight Disruption Communication: Notified passengers and travel agents of flight delays and cancellations, leveraging patience and negotiation skills to manage complaints and guide affected passengers through the disruption — even when the cause was beyond the airline's control.

EVEANDBOY (Internship)

Dec 2022 - Mar 2023

UX/UI Designer & Content Creator

- UX/UI Design: Designed the UX/UI for an internal company website.
- Content Creation: Selected products, shot photography and video content, and briefed the graphic design team on visual direction.

Capstone Project: Public Relations System for a Hire-Purchase Aquatic Extreme Sports Business

- Requirements & Analysis: Led end-to-end requirements analysis for a multi-functional sports platform, translating business and community needs into defined functional requirements and user stories.
- Feature & Content Design: Designed user flows for three core modules: a community forum for Q&A, a retailer/rental directory, and an instructional resource center.
- Usability & Interface Evaluation: Conducted hands-on usability testing and walkthroughs to validate designs before deployment, ensuring smooth navigation and error-free user journeys.

GUEST SPEAKER

- "Unlock Your Leadership" (2025) - Delivered a session on social etiquette and professional image to student leaders, achieving a 4.68/5.0 satisfaction rating.
- "Personal Development for Digital Innovation" (2024) - Led career-readiness workshops on professional etiquette, workplace behavior, and innovation management.

EDUCATION

Suan Sunandha Rajabhat University

2019 - 2023

- Bachelor's Degree in Information (Management Information Systems Major)
- Relevant Coursework: Systems Analysis and Design, Enterprise Resource Planning (ERP), Decision Support Systems, UX/UI Design, Data Analysis, Database Management Systems, Data Analysis Spreadsheets, Form and Reporting Systems.

Certificates

Business Negotiations | Decision Support System for Business Organizations | Big Data Analysis | Digital Awareness Checkpoint Skills | Introduction to Computer Science | GitHub for Developer and Fundamental Web Dev with HTML5 & CSS3

SKILLS
