SUMMARY

Detail-oriented and analytical Management Information Systems (MIS) graduate with a versatile background spanning Systems Analysis & Design, UX/UI Analysis, and Cross-Functional Stakeholder Management. Proven capability to bridge the gap between business requirements and user-centric digital solutions. Combines strong presentation, high-stakes negotiation, and real-time problem-solving skills from the aviation industry to streamline workflows and deliver actionable business insights. Highly adaptable, critical thinker, and eager to drive product quality and team success.

WORK EXPERIENCE

Air Macau Airline

January 2024 - October 2025

Passenger Sales / Reservation & Ticketing Assistant

- **Ticketing & Passenger Consultation:** Managed ticketing services and reservation systems; acted as a professional consultant for passengers and travel agents regarding flight bookings, ticketing rules, and travel itineraries.
- **Data-Driven Reporting:** Gathered and compiled weekly sales data and aviation updates to prepare structured reports, supporting management in strategic evaluation.
- **Outsource & Media Collaboration:** Partnered with external agencies (outsources) to brainstorm, strategize, and plan digital marketing content production.
- **Flight Disruption Management:** Handled and resolved real-time flight cancellations or delays under high-pressure environments, ensuring effective communication and problem-solving for passengers.
- **Performance Growth:** Executed online media plans in collaboration with team members, resulting in a 72% increase in LINE Official followers and 10% on Facebook.

EVEANDBOY Company Limited (Internship)

December 2022 - March 2023

UX/UI Designer & Content Creator

- **System Analysis:** Designed UX/UI interfaces using user-centered analysis to enhance application usability.
- **Digital Content:** Planned and created targeted website content to improve user engagement and marketing reach.

Capstone Project: The development of a public relations system to promote the hire - purchase business of aquatic extreme sports.

- **End-to-End Analysis:** Managed the development and structural design of a multi-functional sports platform, translating conceptual business and community ideas into defined functional requirements.
- **Feature & Content Design:** Designed and developed user flows for three core modules: an interactive community forum (similar to Pantip) for Q&A and knowledge sharing, a centralized directory for sports retailers and equipment rentals, and an instructional resource center for technical tutorials.
- **Usability & Interface Evaluation:** Conducted hands-on manual walkthroughs and usability testing on the user interface to ensure smooth system navigation, logical user journeys, and error-free user experiences before deployment.

GUEST SPEAKER & LEADERSHIP

- **Guest Speaker (2025): "Unlock Your Leadership"** - Delivered a high-impact session on social etiquette and professional image to student leaders, achieving a 4.68/5.0 satisfaction rating.
- **Guest Speaker (2025): "Personal Development for Digital Innovation"** - Conducted career-readiness workshops, focusing on professional etiquette, workplace behavior, and innovation management to support their transition into the workforce.
- **Professional MC:** Served as a Master of Ceremonies for university-level events, demonstrating advanced public speaking and facilitation skills.
